

- This is our most powerful striking tool that is used for rapid entry through inward opening wooden doors and some metal doors. The HeavyRam weighs 23 kg and is designed for one, two or three operators.
- The HeavyRam has been carefully tested to ensure the weight of the Ram delivers maximum impact energy. Unlike other tools on the market it is designed to have the balance centered between the handles, which ensures maximum efficiency and ensures proper balance and less strain on the operator.
- The 360 (degrees) handles are designed to offer the ability for the operator(s) to strike the low, middle or high point of the door dependant on where the locking point is located.
- As with all of our Rams, the striking head is formed like a hammerhead i.e. the head is convex. This means that unlike other striking tools the blow does not need to be perpendicular to give the maximum effect.

Product information	
Prod Nr	MOE-015
Prod Name	R23 HeavyRam
HS code	8205598000
Nato stock nr	
Mateial	Steel
Color	Black

Product dimension	
Length	1050 mm
Depth	350 mm
Height	250 mm
Weight	23 kg
Package dimension	
Length	1090 mm
Width	355 mm
Height	235 mm
Weight	25 kg

1. 360 degrees handles
2. Handle for one or two operators
3. Attach point for pulling chain
4. Hand protection
