

COMBAT BELT HARNESS -14

15-01029

Introducing a robust harness designed to provide essential support for your combat belt.

FEATURES

- * This harness effectively distributes a portion of the weight from your hips to your upper body, ensuring improved balance and comfort.
- * With its one-size-fits-all design, the harness can be easily adjusted in length at both the front and back, accommodating various body sizes and preferences.
- * For enhanced comfort and flexibility, the back of the harness features an elastic string, allowing for greater mobility during wear.
- * The harness securely attaches to the combat belt at four points on the top, both in the front and back, utilizing a reliable buckle mechanism.
