

SPEED MAGAZINE POUCH 2.0

S-22-01888B

A tight fitting, light weight magazine pouch that easily can be adjusted for most 5,56 and 7,62 magazines.

FEATURES

- * Adjustable for 5,56 and 7,62 magazines.
- * Firm sides and front makes it easy to reinsert the magazine when adjusted.
- * Improved design that removes all edges that can catch the magazine when removed from the pouch. Makes it faster to remove the magazine.
- * Not stiff, so it can be flattened when not in use.
- * Tight fitting with an elastic adjustment.
- * Three row MOLLE attachment on the back.
- * MOLLE webbing on the front for additional pouches.
- * Elastic cord and a pull tab secures the magazine in the pouch. Shrink plastic around the elastic cord makes it easier to open and close.

MATERIAL

100% polyamide PU coated fabric.
100% polyester webbing
100% HDPE plastic board.
IRR and FR.

SPEED MAGAZINE POUCH 2.0

S-22-01888B

Adjusted for a G3, 7,62 magazine.

Adjusted for a normal plastic 5,56 magazine.

Adjusted for a HK417, 7,62 magazine.

Many different pieces of equipment can be carried in this pouch.

MOLLE webbing on the front for additional pouches.

Three rows MOLLE attachment on the back.

A pistol can also be secured in the pouch.

The width of the pouch is adjusted with the elastic cord and cord lock in the bottom of the pouch.

To make the pouch fit 7,62 magazines, pull the cord lock out on the end of the elastic string. Then pull the sides of the pouch out and insert the magazine. To make the pouch tighter, pull the elastic string and adjust the cord lock.
