

## FEATURES

- \* The bag provides a secure and easily accessible storage solution for your gas mask.
- \* It can be carried on your leg or attached to the back of the vest without hindering access to its contents.
- \* The flap of the bag is designed for effortless opening, ensuring quick and convenient retrieval of your gas mask.
- \* An inner pocket is available within the bag, offering additional space to store gloves and other protective equipment.
- \* The flap securely closes using a long Velcro strip along its edge, providing a reliable seal. For further reinforcement, a push button is included on the pull band.
