Cold WX Jacket SV (Gen 1.4)

MPN: X000009546

SIZE: XS, S, M, L, XL, XXL

WEIGHT: 620g / 21.9oz | (Size Large)

For active tasks in Polar environments the Cold WX SV hooded jacket provides maximum thermal regulation in the most challenging temperatures. A relaxed fit accommodates layers underneath without binding and the hip length provides solid, reliable coverage from snow and arctic winds.

The Gen 1.4 features the unique GORE® WINDSTOPPER® fabric that is a durable 2-layer laminate delivering durable windproof performance and high resistance to rain and snow. It also features an updated insulation material package throughout the garment and a more environmentally friendly DWR treatment to the collar and cuffs.

Two layers of Coreloft™ continuous insulation with non-quilted construction eliminate cold spots entirely. Patterned for high air permeability, the jacket maintains PRO's strict requirements to support a wearer's comfort in high output situations.

MATERIALS

- + GORE® WINDSTOPPER® 2L 40d Nylon Plain Weave with ePTFE membrane and C6 DWR
- + Coreloft™ Continuous 100 (3oz) synthetic insulation with C0 DWR
- + Coreloft™ Continuous 90 (2.7oz) synthetic insulation with C0 DWR
- + Made with PFAS chemicals

PRODUCT FEATURES

- + The insulated drop style hood is removable
- + Expandable cuffs with Velcro® closures open wide enough to support tactical watches and layer transitions while wearing gloves
- + Weatherproof zippered pockets throughout the garment are one-hand and gloved-hand operation friendly
- + Insulated lower torso pockets are fleece lined
- + Internal mesh pockets for drying and warming of gloves
- + Twin Napoleon style outside chest pockets
- + Upper arm pockets include 4" x 4.5" IFF patches, VLite™ retention ring
- + Drawcords are one-handed, glove friendly and vertically routed to minimize interference with duty belts, harnesses and pack hip straps
