

MEN'S

Cold WX Zip Neck SV

MPN: X000004869

SIZE: XS, S, M, L, XL, XXL

WEIGHT: 345g / 12.2oz | (Size Large)

A heavier weight, form-fit fleece midlayer ideal for severe, or colder temperatures in polar climates when insulation should be moved closer to the body's surface for greater thermal retention. The Polartec® Power Stretch® maintains breath-ability and quick-drying to support an active wearer in these conditions.

MATERIALS

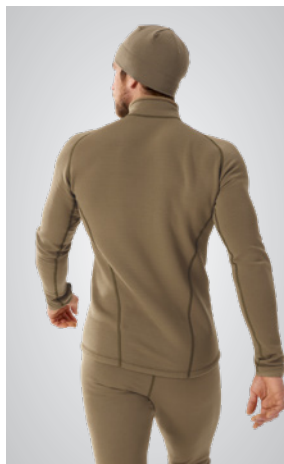

- + Polartec® Power Stretch® grid-fleece is air-permeable and fast-drying
- + Free from intentionally added PFAS

PRODUCT FEATURES

- + Articulated patterning for unrestricted mobility
- + Cuffs open wide enough to support fast delayering while wearing tactical watches and gloves
- + Reinforced thumb loops aid in donning and doffing
- + Smooth outer surface that layers easily under a second paired PRO midlayer
- + Low profile seams, offset from the seams of paired PRO layers, maintains comfort especially when worn beneath plate carriers and load carriage equipment. and crampons and adjusts for ventilation

COUNTRY OF ORIGIN

El Salvador

Crocodile
