

MIDLAYERS INSULATED & FLEECE

L3

ESSENTIAL
COLLECTION

MEN'S

Atom Hoody LT (Gen 2.1)

MPN: X000010964

SIZE: XS, S, M, L, XL, XXL

WEIGHT: 405g /13.3oz | (Size Large)

A midlayer jacket that is worn in either a stand-alone manner or in conjunction with a wet weather protective jacket. A materials package with increased air permeability and consideration for use under plate carriers and packs ensures a wide comfort zone for wearers who may be unable to transition layers during the course of the task.

A more form-fitting pattern offers greater thermal-efficiency while still allowing the Atom to be paired with accompanying PRO base and midlayers. Increased wind and moisture resistance allow the jacket to function as an outer layer in mild wind and rain or snow.

MATERIALS

- + LI PENG High Air Perm Nylon Ripstop
- + TORAY Mechanical Stretch Mini-Rip Lightweight
- + Polartec® Power Stretch Hardface® fleece is air-permeable and fast-drying
- + Coreloft™ Continuous 65 (2oz) synthetic insulation with DWR
- + Made with PFAS chemicals

PRODUCT FEATURES

- + Polartec® Power Stretch Hardface® side panels provide added breathability and maintain a form fit
- + Full zip closure (w/No Slip Zip™) prevents zipper from self-opening at collar
- + Left Chest Zip Pocket – allowing for the secure carriage of mission essential items
- + Cuffs are Velcro® adjustable and seal to the wrist or can open up wide to support donning and doffing over tactical watches and gloves, or rolled to the elbow for venting
- + Cable management loops allowing for the routing of communications cables exiting the hand pocket media ports
- + Hand zip pockets (w/media ports) allowing for convenience and the secure carriage of mission essential items
- + Drawcords are one-handed and glove friendly and vertically routed to minimize interference with duty belts, harnesses and pack hip straps
