

E220 Rigger's Harness

MPN: X000004646

SIZE: XS, S, M, L, XL, XXL

WEIGHT: 245g / 8.5oz | (Size Large)

A rigger's harness system that can be used either in an expedient harness configuration (belt and sling), or in a rigger's belt configuration (belt only) for travel restraint, specifically designed for military or law enforcement tactical operations.

MATERIALS

- + Vapor Mesh™
- + Tweave® Durastretch™
- + 7075 T6 aluminum anodized buckle
- + Made with PFAS chemicals

PRODUCT FEATURES

- + Belt Width is c.2" – allowing belt to be worn in conjunction with PRO Combat Uniform pants
- + Reinforced Attachment Loop – allowing for the attached extension of a safety belt lanyard in order to allow for end-user attachment to rotary wing platforms
- + 11mm Webbing Gear Loops – allowing for optional load or tool carriage
- + Vapor Mesh™ Sling – allowing for the expedient creation of two lightweight and breathable leg loops when the sling is attached by a carabiner to the reinforced attachment loop
- + Warp Strength™ Technology – enhances end-user comfort by evenly distributing load and weight across hips

STANDARDS

- + EN 358 Certified: Rigger's Belt configuration without leg loops
- + EN 12277 Certified: Rigger's Harness configuration with leg loops

COUNTRY OF ORIGIN

Canada

MultiCam® II Coyote II Black II
