

MEN'S

# Tactician SV Shirt MultiCam®

MPN: X000010489

SIZE: XS, S, M, L, XL, XXL

WEIGHT: 335g / 12oz | (Size Large)

Softshell combat shirt built for cold and severe weather conditions. When the forecast turns to snow, sleet, or freezing wind, the Tactician SV Shirt keeps you warm, dry, and mission-ready. As part of your cold-weather layering system, this combat shirt features a body-mapped design that combines wind-resistant, water-repellent softshell protection at the sleeves and shoulders with air-permeable stretch through the torso for thermal regulation and next-to-skin comfort under a plate carrier.

## MATERIALS

- + 520E Durastretch Nylon Plain Weave C0 DWR Printed, 214gsm
- + Body: Fortius 50D recycled Nylon Stretch Woven Plain Weave C0 DWR, 97gsm
- + Free from intentionally added PFAS

## PRODUCT FEATURES

- + Body-mapped design pairs durable, water-repellent camo sleeves with a breathable solid torso for protection and comfort under load-bearing gear
- + Camouflage sleeves and shoulders use a more durable, wind-resistant, water-repellent stretch-woven fabric for protection and concealment in exposed conditions
- + Stretch-woven torso enhances breathability and comfort beneath a plate carrier
- + Raised full-coverage collar with Spacermesh™ lining provides comfort and shields against wind, slings, and weather exposure
- + Low-profile front zipper ends above plate-carrier line to eliminate pressure points
- + Lockdown zipper slider prevents accidental opening during high-intensity movement
- + Zippered upper-arm pockets provide silent access to small tools or identification, with lockdown sliders for added security
- + Upper-arm IFF Velcro® 4x4.5" patch panels with V-Lite™ retention rings secure electronic IFF devices to your kit
- + Die-cut Velcro® cuff tabs with low-profile webbing reduce bulk, secure sleeves, and minimize snag and tear hazards
- + Body material made with recycled content and bluesign®-approved fabric
- + FC0 DWR (Durable Water Repellent) finish repels moisture and is free from intentionally added PFAS
- + MultiCam® print with NIR Signature Reduction provides visual and near-infrared camouflage for operational concealment in varied environments
- + Internal sleeve pocket for elbow pads (not included)
