

Product Sheet

Nordic Winter Expedition Mitt

Art No: 79021

A Combat Mitt glove with thin fixed insulation on backhand including a removable lining and a removable insert glove. To wear in extreme weather conditions for extra protection against wind, water and coldness. Can be used as a system where the 3-finger insert glove has a grip in palm, finger and inner thumb and can be used as a stand-alone glove. Outer glove with water resistant leather in palm, inner thumb and sidewalls for good grip and enhanced durability. Gloves stay firm on hand with the stretch band at wrist, and cuff can be closed with the snow lock.

Areas of use: To be used in extreme weather conditions where the 3 different layers make sure that you always have a protection on your hands.

Weather conditions: Severe to extreme cold climate.

Fitting: Unisex fitting. Pre-curved shape.

Sizes: 6-12.

Features:

- Windproof and water repellent.
- 2-layers of removable liners for extra warmth.
- Inner liner can be used as a stand-alone glove.
- Combine with Hestra Outer Shell for waterproofing.
- Lanyard and carabiner for fastening/storage.
- Handcuff.

Storage: Use a carabiner at eyelet to attach gloves to clothes, bags or similar for storage in the field and to dry/ventilate after use.

Maintenance: Dry leather gloves at room temperature, avoid open flames, heaters, tumble-driers and ovens. Dry outer shell and liners separately in an upright position by hanging. If completely wet, carefully squeeze out the water gently without twisting. Clean with a lightly moistened cloth, avoid washing as it depletes the leather. Removable liner can be washed gently in 30°C. Lubricate leather regularly to improve resistance to moisture, wear and tear. Allow the fat to absorb the leather balm for several hours before use and wipe off the excess.
